(For the description of the lilies, see the 1942 catalog sent you.)

To my customers, and  
The customers of Mr. E. L. Kline, Lake Grove, Ore., and  
Our prospective customers:

You will find within these pages a genuine surprise. In these times of prices soaring higher and higher, we are actually lowering some of our prices to you - wherever we have a supply sufficient to warrant our giving you the advantage.

In cases where the supply is very limited, we are compelled to raise the price. Last year we sold out some varieties entirely. It takes years to grow lilies and bring on a sufficient supply for our customers, even flowering sized bulbs.

We file our orders as we receive them, and ship accordingly. Please send all orders to my office. And we urge you to mail them early.

Sincerely yours,

*(Miss) Julia E. Clark*

Address -

Julia E. Clark,  
Canby, Oregon

## NOTES

This year, to assist those who love lilies, yet have only small space in which to plant them, we are giving the price of a single bulb on all the lily varieties. **THREE** bulbs will be three times the price of one bulb. Fifty bulbs of any one variety will be one-half the 100 price.

The handling of these small orders, particularly with the high price of labor, compels us to ask for 35c extra on all orders of \$2.50 or less. (Seeds an exception.) If the order does not accompany this size order, we will understand that you prefer paying the delivery charges, and will send your order accordingly.

We ship bulbs at the proper planting time, according to the season and the variety of lily. Late blooming varieties are not ready to ship until November. Please prepare your ground early.

Orders of \$100.00 and over may have the same discounts as in 1942. See page 3 of the 1942 catalog.

Unless an established customer, please send cash with your order.

Kindly read over carefully page 2 and page 3 of the 1942 catalog.

## IRIS

This is a beautiful dark blue iris. It is not a German Iris—blooms much later. I have never been able to learn its name. The seed came mixed in with some lily seed I purchased in New York a few years ago. It did nicely around my pool in my private garden. I have close to 100 plants which I will sell at \$1.00 each—no more than three to each customer.

# LILIES

3 Bulbs three times the price of "each" bulb.  
50 Bulbs 1/2 the price of 100 bulbs.

These prices are prepaid to destination except order of  
\$2.50 or less, for which please add 35c.

## Lily Bulbs Not Listed in the 1942 Catalog

Here are two more of the Gold Band Lilies.

See below for prices of two others.

**AURATUM Platyphyllum.** This is one of the easiest Auratums to grow. The blossom is white, crimson spotted, with a central band of gold on each petal—large bowl-shaped flowers, sweetly scented. Plant 8 to 10 inches in ordinary well drained soil of deep leafmold. Soluble limestone is fatal to it and too much shade. Under favorable conditions it will attain a height of 5 to 8 feet. Blooms August-September. Very limited supply.

	Each	6	12
4-6 In. Cir. ....	\$1.05	\$6.10	\$11.90

**AURATUM Tricolor.** Is similar to Platyphyllum, but the white flowers are only faintly spotted yellow—robust and beautiful. Same culture and same blooming period as Platyphyllum. Stock very limited.

	Each	6	12
4-6 In. Cir. ....	\$1.75	\$10.30	\$20.30

**DAURICUM (Var. Luteum).** This is similar in type to the true Dauricum, but the color is a clear primrose yellow, spotted black. It is one of the finest of low growing lilies. Height 1 1/2 to 2 ft. Blooms June. Plant 5 in. deep in sunny location with good drainage.

	Each	6	12
Flowering size ....	\$1.05	\$6.10	\$11.90

**MEDEOLOIDES.** This lily is known as the "Wheel Lily", named from the whorled arrangement of its leaves, and is a lovely little rock garden lily, whose flowers range from apricot to scarlet, spotted heavily or lightly, or not at all, with black spots. Height 12 to 18 in. Plant 3 to 5 in. deep in soil containing an abundance of leaf mold, and good sharp drainage.

	Each	6	12
Flowering size ....	\$ .55	\$3.10	\$5.90

**PETER PUGET.** This is a cross between Pardalinum and Parryi. A dull light green in general color with recurving segments of capucine yellow, black spotted towards the base, overlaid with red towards the tips. This lily was named after Captain Puget. Bears 15 to 20 flowers and grows 4-5 ft.

	Each	6
Flowering size .....	\$1.85	\$10.85

**REGAL, Pure White.** This resembles the regular Regal except is pure white. Same culture as regular Regal found on page 3 of the 1942 catalog.

	Each	6	12	25	100
5-6 Size Cir. ....	\$ .25	\$1.50	\$2.70	\$5.00	\$18.80
6-7 Size Cir. ....	.35	1.90	3.50	6.60	25.20

**ST. NICHOLAS (Hybrid).** Cross of Martagon album and Hansonii. Flowers are recurved, buttercup yellow with few black spots. Best planted partial shade about 6 inches deep. Height 3-4 ft. June flowering.

Flowering size.....Each \$5.50

**SPITFIRE.** Another "face upwards" vase-shaped lily—flame-scarlet with medium sized bay spots. Inflorescence arranged like a candelabrum. Height 3 to 4 ft. Sun or partial shade.

Flowering size.....Each \$4.75

**SUTTON COURT.** Yellow, heavily spotted with purple, the outer segments shaded pink, with many flowers. Blooms July, height 5-6 ft. Plant 6-8 inches deep.

Flowering size.....Each \$6.50

**TENUIFOLIUM GOLDEN GLEAM.** This lily resembles the Tenuifolium (page 29, 1942 catalog) except the color of its blossoms, and the blossoms are just what the name implies, a GLEAM OF GOLD. Ht. 1 to 2 ft. Plant 3-4 inches deep. June flowering.

	Each	6	12	25	100
3-4 Cir. ....	\$ .35	\$2.00	\$3.70	\$7.00	\$26.80
4-5 Cir. ....	.45	2.50	4.70	9.00	34.80

## Lily Bulbs as Listed in the 1942 Catalog

See 1942 Catalog Page You will find, on the left hand side of these sheets, the page in the 1942 catalog in which the description of each variety may be found.

We are sold out of Tigrinum splendens bulbs (page 31, 1942 catalog).

We have no Candidum larger than 8-9 and no Henryi larger than 6-7.

If you are interested in any of these for an order of 12 bulbs or more of any of them, write us. We might be able to secure them.
